

Crowdsourcing your PMO Governance Model

Crowdsourcing is a relatively new term that describes the act of taking a task traditionally performed by an employee and outsourcing it to an undefined, generally large group of people or community. In this presentation, that was part of the **2009 PMO Symposium**, an innovative approach to developing an organization's PMO Governance model was offered that leveraged crowdsourcing and Wikis to create a self-sustaining governance model that was easily scalable and adapted readily to changing organizational needs.
