Crowdsourcing your PMO Governance Model

Crowdsourcing is a relatively new term that describes the act of taking a task traditionally performed by an employee and outsourcing it to an undefined, generally large group of people or community. In this presentation, that was part of the 2009 PMO Symposium, an innovative approach to developing an organization's PMO Governance model was offered that leveraged crowdsourcing and Wikis to create a self-sustaining governance model that was easily scalable and adapted readily to changing organizational needs.
